## Mobile-Powered Industrial Carts Let Employees Work Anywhere

Whether it's a warehouse, manufacturing facility, or industrial workspace, productivity is lost when workers must stop what they're doing and leave the area to recharge a depleted battery.

**Luxor Mobile-Powered Industrial Carts** deliver reliable, cordless, rechargeable power to where the work needs to be done. That means employees can ship, receive, manage inventory, and conduct cycle counts free from costly interruptions.

# Rechargeable Power When You Need It and Where You Require It

- Provides mobile charging of laptops, small printers and label makers, barcode scanners, and other essential items
- When power runs low, simply replace the battery with a fully charged one for seamless, uninterrupted power
- Eliminates the need for extension cords and power strips which are potential trip hazards
- Supports Lean manufacturing principles for operational efficiency
- Ensures safe social distancing in industrial workspaces

## Complete System Includes:

- **Luxor Adjustable-Height Metal AV Cart (AVJ42) or Luxor 32" x 18" Plastic Tub Cart (EC11-B)**
- **KwikBoost EdgePower® Clamp-on Charging Station**
  - 100V-120V 90W AC outlet
  - USB-A charging port
  - US-C PD charging port
- **KwikBoost EdgePower® Single Battery Charger**
- **Two KwikBoost EdgePower® Rechargeable Batteries**
  - Each battery will charge a laptop up to two times
  - Charges a tablet up to four times
  - Charges a smartphone up to 14 times
- **Plastic or Metal Cart Attachment Bracket**
  - Plastic Cart bracket sold separately (KBEP-BRKT-P)
  - Metal Cart bracket included with AVJ42-KBEP bundle
