

CART MOUNT

KBEP-BRKT-M

## KWIKBOOST EDGEPOWER™ METAL AV CART ATTACHMENT BRACKET

Turn your Luxor metal AV cart into a portable charging station. The KwikBoost EdgePower™ Metal AV Cart Attachment Bracket makes it easy to mount your EdgePower Clamp-On Desktop Charging Unit to select Luxor metal AV cart models.

It's perfect for warehouse, manufacturing, education, and service applications where mobile, cordless power to electronic devices is necessary. Examples include laptops, printers, projectors, card readers, and much more. The bracket simply screws onto the cart using existing mounting holes, perfectly positioning the EdgePower charging station for easy access to power without diminishing the storage capacity of the cart.

**NOTE:** Choose model KBEP-BRKT-P for use with Luxor's plastic tub and utility carts.

### Dimensions:

**Overall:** 8" D x 3.125" W x 5.5" H

**Product Weight:** 2 lbs.

### Features:
