

SideTrak® Slide

ST12BL

Want to enjoy desktop computer efficiency and productivity virtually anywhere? Add a second screen to your laptop with the SideTrak® portable monitor. With SideTrak, you can easily work with dual screens whether you're in the office, a coffee shop, on the couch, or at the airport. It's the only portable laptop monitor that does not need to be placed on a table or need a kickstand.

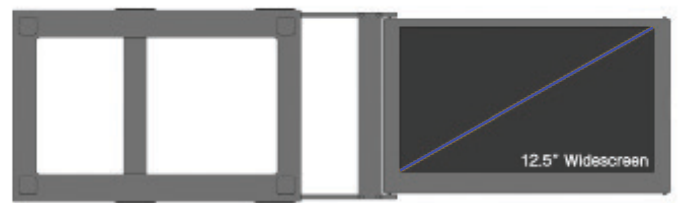

The SideTrak portable monitor is lightweight and magnetically attaches to your laptop with device safe metal plates that make it easy to add and remove the 12.5" second screen. The dual sliding tracks are built to fit perfectly on most computers ranging from 13" to 17.5" allowing you to set up your dual screen workstation in seconds; simply slide out the screen, plug in the USB monitor cord, and get to work!
